Beg

Saliva

And I walked the white line
And I did the shoe shines
And I break it down
So you can go down, yeah
And ran the rat-race
And I made the front page
And I break it down
So you can go down now
Go down now, yeah, yeah
I bet you'd beg if you were serious
So break on down, break on down now
I bet you'd beg if you were serious
So break on down, break on down now
Break on down now
And I made the big break
And I made my own mistakes
And I break it down
So you can go down
You can go down now, yeah
And you wash away me
And never tried to save me
And I break it down
So you can go down now
Go down now, yeah yeah
I bet you'd beg if you were serious
So break on down, break on down now
I bet you'd beg if you were serious
So break on down, break on down now
Break on down now

For every time you punished me
For every time you laughed at me
For every time you beat me down
Look at me now, look at me now
Look at me now, look at me now
Look at me now, look at me now
Look at me now, bitch, look at me now
Look at me now, look at me now
Look at me now, look at me now

I bet you'd beg if you were serious
So break on down, break on down now
I bet you'd beg if you were serious
So break on down, break on down now
Break on down now, yeah yeah
Begging you, what?
Begging me, what?
Begging you, what?
Begging you, what?
Begging you, what?
Begging me, what?
Begging you, what?
Begging you, what?
Begging you, what?
Begging me, what?
Begging you, what?
Begging you
