

Coming Right Over

Hal

I'm coming right over
We'll huddle close and we'll get back
I'm coming right over
We'll huddle close and we'll get back
I'll listen to all that you say
I'll be here in every way You're out on your own
You're feeling that cold
And that ain't easy
For someone like you You're out on your own
You're feeling that cold
And that ain't easy
For someone like you I'm coming right over
We'll huddle close and we'll get back
I'm coming right over
We'll huddle close and we'll get back And that ain't easy
For someone like you You're out on your own
You're out on your own
You're out on your own
You're out on your own
You're out on your own
