

# Shallow

## Black Lipstick

Girl, don't tell me how you want me  
Tell me how to get through  
Girl, don't tell me how you want me  
Tell me how to get through  
'Cause I gotta know  
I gotta know you inside out  
Know what I'm talking about  
You're taking me higher than I've been before  
You're taking me higher than I've been before  
And leaving me shallow  
Girl, don't tell me how you need me  
Tell me how to get through  
Girl, don't tell me how you need me  
Tell me how to get through  
'Cause I gotta know  
I gotta know  
I gotta know  
'Cause I gotta know  
I gotta know  
I gotta know you inside out  
Know what I'm talking about  
You're taking me higher than I've been before  
You're taking me higher than I've been before  
You're taking me higher  
You're taking me higher  
You gotta do what you do  
Gotta say what you say  
And lie to yourself forever  
You gotta do what you do  
Gotta say what you say  
Lie to yourself forever  
Girl, don't tell me how you need me  
Tell me how to get through  
Girl, don't tell me how you need me  
Tell me how to get through

'Cause I gotta know  
I gotta know  
I gotta know  
'Cause I gotta know  
I gotta know  
I gotta know you inside out  
Know what I'm talking about  
You're taking me higher than I've been before  
You're taking me higher than I've been before  
You're taking me higher  
You're taking me higher  
You're taking me higher  
You're taking me higher  
Me higher
