I Know

Jude

You've got such a pretty smile
It's a shame the things you hide behind it
Let 'em go, give it up for a while
Let 'em free and we will both go find itI know there's nowhere you can hide it
I know the feeling of alone
I know that you do not feel invited
But, come back, come back in from the coldStep away then from the edge
Your best friend in life is not your mirrorBack away, come, back away, come
Back away, come, back away, come
Back away, come, back away
I am here and I will be forever and ever and II know that there's nowhere you can hide it
I know the feeling of alone
Trust me and don't keep that on the inside
Soon you'll be locked out on your ownYou're not alone, you're not alone
And don't say you've never been told
I'll be with you till we grow old
Till I'm in the ground and I'm coldI'm not sitting up here on some throne
I'll be with you till we grow up young
Like a dog you can always come home
Dig up a boneLook around down, baby downtown
Don't throw me to the pound
