

I Found You

Albert Cummings

All I ever wanted
was someone like you
all I ever needed
was someone like you
all I ever wished for
was someone like you
now that I got you

my dreams came trueI thought the day might never come

I knew my dream was overdue
Now I pray my love is strong
Because I finally
Yeah I finally found you.

I can't tell you
how good I feel right now

I don't know how you do itbut you do it somehow

I just want to hold you
and squeeze you tight

I know that everything in my world will be alrightI thought the day might never come

I knew my dream was overdue
Now I thank my lucky stars because I finally
I finally found youSolo
I thought this day might never come
I knew my dream was overdue
now I thank my lucky stars
because I finally
I finally found you
