

# All I Want

**Michael W. Smith**

All I have in this world is fire from above  
All I have in this world is You  
And all the journeys I have walked  
I know You've walked them too  
All I want is to be faithful, all I want is You  
All I have is a love that set my world on fire  
Let it fall, let it burn in me  
And oh to be a friend of God is all that I desire  
All I want is to be faithful, all I want is You  
All I want is You  
All I want is You  
It is You  
All I have in this world is fire from above  
All I have in this world is You  
And all the journeys I have walked  
I know You've walked them too  
All I want is to be faithful, all I want is You  
All I want is You  
All I want is You  
Is You
