

# Listen Up

## Haystak, Young Buck

So it was, my life began  
Just a pale and drawn shadow of a man  
Then I put my amour on  
This could be the night all my fears are gone  
This could be the one  
Listen up, we're gonna make it somehow  
We're gonna change the world  
Starting with here and now  
There's a time for standing tall  
Every man must rise, every man must fall  
When he comes to call  
Listen up, we're gonna make it somehow  
We're gonna change the world  
Starting with here and now  
Oh, listen up, we're gonna make it somehow  
We're gonna change the world  
Starting with here and now  
Oh, listen up, we're gonna make it somehow  
We're gonna change the world  
Starting with here and now  
Ooh, ooh, ooh, ooh
