Sometimes I get so tired
Just trying to find a place to lay my head
I look up to the sky
I feel the warmest light comfort me

I've seen the great heights
Reminding me I'm alive, I don't wanna die
I don't wanna waste another day or night

I know there's something more
Than what we're living for
I see it in the stars, I feel it on the shore
I know there's something
I know there's something more

I think we're all afraid
That we might be alone, alone down here
We all want to have some faith
At least that's true in my case to just believe

I've seen the great heights
Reminding me I'm alive, I don't wanna die
I don't wanna waste another day or night

I know there's something more
Than what we're living for
I see it in the stars, I feel it on the shore
I know there's something

This world may crumble into the ocean
It could all end tonight
I undermined you then tried to find you
My only source of light

I am breathing, I am breathing, I am alive
I don't wanna die
I don't wanna waste another day or night

I know there's something more
Than what we're living for

I see it in the stars, I feel it on the shore
I know that I'm alive, I don't wanna die
I don't wanna waste another day or night

I know there's something more
Than what we're living for
I see it in the stars, I feel it on the shore
I know there's something more
