

Try Again

Raging Fyah

Oh yea
Every single day to JAH I'm praying
If your struggling everyday
And your moving life along
I pray JAH go every where you go
And if you feel like giving up
Just lift your head up to sky
Just that remember that you are not alone
No matter how it hard
We get up and try again
Try again
No matter how it tuff we get up and rise again
Rise again
No time for defeat we get up rise again
We rise again
No matter how it hard we get up and try again
Trial and crosses in your way
But you move out and go along
Cause every day you live
Every life you meet
Every body sing the same song
And if you feel like giving up
Lift your head up to the sky
And remember that you are not alone
No matter how it hard
We get up and try again
Try again
No matter how it tuff we get up and rise again
Rise again
No time for defeat we get up rise again
We rise again
No matter how it hard we get up and try again
