Dinner Last Night (Loho Demo)

O.A.R.

It's okay if you lock yourself up at the end of the day
And it's alright if you're gonna let us fade to nothing
You worked harder for nothing at all
"Are you alright?"
She asked me deep after dinner last nightHold on and you've got to remember
Hold on and you've got to be strong
Hold on and you've got to remember
You've got to come back and you've got to be strongDo you even hear me? How far have you strayed from home?
Do you feel me or is it all gone?
Pick your pleasure, be sure that it's what you want
"Are you alright?"
She asked me deep after dinner last nightHold on and you've got to remember
Hold on and you've got to be strong
Hold on and you've got to remember
You've got to come back and you've got to be strongHold on, I know you remember
Right now, here you belong
Hold on man, you've got to be strongDarling, it won't be long
Sit with me, darling it won't take long
But just believe in me, I'd never do you wrongI was a million miles away just to live in my head
But I'm never going back to that place again
Now I'm all here with youHold on and you've got to remember
Hold on and you've got to be strong
Hold on and you've got to remember
You've got to come back and you've got to be strongHold on, I know you remember
Hold on, with me you belong
Hold on man, it's here you belong
With me you belong, with me you belong
