

# Deliverance

[Vangelis](#)

Now Watch! The grand deliverance opens up like cuts in the skin It'll show the roads and take you where  
You've never been Returning and burning - Feel the barriers explode From the barrel of aggression it's time  
To reload This organic ammo moves faster than these eyes can see Those bullets kill the distance in just as  
fast as speed can be Returning and burning - Feel the barriers explode From the barrel of aggression it's time  
To reload Black - the ace of shades - Strikes through the veins of the lame The face of the target is  
Selfdestruction and its tongue speaks your name Deliverance - The soul explodes Down on your knees you have  
some bullets to please The clips are full and there's a trigger to pull Down Down Down - And fill another round  
The conflict is you - You better take on this fight From the ballistic wombs, here comes your death in flight  
The more you grind your hate the sharper it'll get You've seen nothing yet  
Rising yet falling - The paradox in tribulation And the field turns bloodred as the colours of frustration  
Misanthropic hightime holds the rhythm to your rhyme But still the hesitation is magnetized to your spine  
What will make you cross the line...? Black - the ace of shades - Strikes through the veins of the lame The face  
of the target is  
Selfdestruction and it weaks your name Deliverance - The soul explodes Down on your knees you have some  
bullets to please  
The clips are full and there's a trigger to pull Down Down Down - And fill another round  
And so the grand deliverance opens up like cuts in the skin Now you know it - You've always been here within  
Deliverance - The soul explodes Down on your knees you have some bullets to please The clips are full and  
there's a trigger to pull Down Down Down - And fill another round Deliverance - The soul explodes  
Down on your knees you have some bullets to please The clips are full and there's a trigger to pull  
Down Down Down - And fill another round Lock, Stock, Deathstruck!
