

Just Another Mile

Kingdom Heirs

JUST ANOTHER MILE as sung by Kingdom Heirs

CHORUS

Just Another Mile and I could be called up to glory
Just Another cloud could move and Jesus would appear
This world is not my home, there's a better time and place
Just Another Mile and I could see His face

VERSE1

I started on a journey on the day God saved my soul
I've travelled far and Heaven's now in view
The struggles I have suffered made me stronger on the road
And He will take me through (take me through) safely through

CHORUS

Just Another Mile and I could be called up to glory
Just Another cloud could move and Jesus would appear
This world is not my home, there's a better time and place
Just Another Mile and I could see His face

VERSE2

It's harder now, there are just a few who walk this narrow way
Our enemies are strong on either side
But faith has grown within me, and I hear my father say
We're almost home my child (home my child) my weary child (weary child)

CHORUS

Just Another Mile and I could be called up to glory
Just Another cloud could move and Jesus would appear
This world is not my home, there's a better time and place
Just Another Mile and I could see His face

TAG

This world is not my home, there's a better time and place
Just Another Mile and I could see His face
