

Someday

Slowtide

Someday you might find
a way to speak your mind
and know exactly what to say
your words will never wear away
Someday you might meet
a love you can't defeat
and suffer when it aches to say
that happiness could pave the way
And you know you can go on
to go outside and see the sun
shining bright through cloudy skies
open up your cheerless eyes
We are one of a kind
have the same things in mind
we despise all the fools
our philosophy rules
we might work it out, someday
Someday we might sow
the seeds and watch them grow
we'll always have our common ground
and no one can dissolve this bound
Someday we might be
unattached and free
unafraid to take a fall
unafraid to lose it all
Cause we know we can go on
to go outside and see the sun
shining bright through cloudy skies
shining bright through your disguise
We are one of a kind
have the same things in mind
we despise all the fools
our philosophy rules
we might work it out, someday
