

# Anubis the Jackal

## White Skull

Animal form or God concealed in  
Animal body, since ever you know  
It's up to you, welcome the dead one  
Watch over them in the pyramid hall  
In the book of dead your priest have written  
The other world host deities  
So many doors to the gloomy region  
Animal Gods where's your realm?  
Osiris Ra head of a hawk  
Isis the wind renew it all [Chorus]  
Anubis the jackal protector of the dead  
Evry wall represents your holy image  
Anubis the jackal, you're the one I prefer  
Half a wolf half a man which part will prevail?  
Well I've been told the aliens came  
From far away the new technology  
In Gizah plain so many tracks stand  
Where are you from Anubis the jackal?  
Osiris Ra head of a hawk  
Isis the wind renew it all
