

Far Alone

G-Eazy

Yeah, yeah, yeah blue jeans, air ones and a white tee
 '06 Hangin' out the window like, yee
 Hyphy on one, off a bottle might be, my tree
 Smokin' Agent Orange, Hi-C
Back when me and Marty was recordin' at my mom's
 Most of y'all were chasin' around bops
 Always in the lab, only hoping that my job
 Never would be based around mops now I'm on
 Yeah, she know, love me 'cause my ego
 Girls and the drugs always follow us where we go
 Ay, where the bay at?
 Shouts out to Jay Ant
Lookin' for the party girls, let me know where they at
 Skinny rich girls always askin' where the yay at
 Throw a house party like cool, where you stay at?
 Turn upside down, let her tweak on the wall
Took her to the bathroom and did work in the stall
They used to tell me, I couldn't go too far alone (oh far alone,
 alone)
They used to always say I couldn't go too far alone (oh far alone)
But now I'm here bitch (but now I'm here bitch, but now I'm here bitch)
But now I'm here bitch (but now I'm here bitch, but now I'm here bitch)
Yeah, but now I'm here bitch
From the BART train to a tour bus
 Still the same game except I'm pulling more sluts
 More butts, more bucks, never giving more fucks
 Did it my way, I'm never taking short cuts
 Raised in that town like fool, who put you upon?
 All these bay sounds, Mac Dre is who I grew up on
 I'm just selling game got you if you need a coupon
You can check my resume, see every beat I threw up on
 Smoking on grapes, rollin' up swishers, no papes
 Back of the Ghost, closed drapes
 I'm a boss tycoon
 Girls in the crowd all swoon
 Super high, I'm off to the moon
And I vanished with your girl then I took her to my room
 She wants me to slay okay, that means doom
 Boom, and it's to be expected
Knew this would happen as soon as she texted
They used to tell me, I couldn't go too far alone (oh far alone,
 alone)

They used to always say I couldn't go too far alone (oh far alone)
But now I'm here bitch (but now I'm here bitch, but now I'm here bitch)
But now I'm here bitch (but now I'm here bitch, but now I'm here bitch) No you'll never gonna make this far
No you'll never gonna make this far
