On My Way To Satisfaction

Girls Aloud

I overheard all the people just the other day
Saying, where we going Friday?
Hope you got what it takes, don't apply the brakes
We'll push right through til Sunday
Hey-e-ey-e-yeah
Don't you know I saved a spot for you?
And I-e-I-e-I
I wanna introduce you to my crew
So what do you say?
Am I gonna, get my way?
I don't need your permission
You're uptight and it don't look right
You've gotta share my vision
Oh yeah, morning, midnight,
When d'you wanna get it on?
Oh yeah, morning, midnight,
When d'you wanna get it on?
Take advice from my best friend
She said we'll get those boys til ? them in
She said you been searching for too long
And don't stop now, you know you gotta get it on
Don't get home 'til the morning
Not til the sky is bright
And we'll never take dawn as a warning
Not while this club's still alive
And then we'll dance, have a snog and another tequila
I'm getting hotter this close to you
'Cause hedonism's all about your human behaviour
And you're a rockstar through and through!
I overhear them say:

They're getting down before too long
The boys are looking so so
Girls are looking more so
The guys get wrecked while the night's still young
Will he go wrong?
They're coming on strong
Oh no, you think that you get your own way
On the edge, but you could go either way

DJ, I'll give you a record to play
Have a taste, you could crank up the bass
Make him play me
Try to enrage me
Well they can have a go but they could never break me
I'm feeling red raw
Got what I came for
I'll see you in the middle of a crowded dancefloor
Run to your mama, hide up in your bedroom
I've got you cornered, it's no use
I know I heard that your sister still has to babysit you
You've gone red in the face.
On my way
To satisfaction
How I love (yeah)
Your reaction
On my way
To satisfaction
How I love (yeah)
Your reaction
