Shine On

R.I.O.

Open up ya eyes and watch the sunrise
One part of me I've been made clear
Love that goes spread all the worldMy love ya comes out of devotion
To rule ya, spread to the world
In strange town I'm on my mission

Where we praise the day straight our way all the nationLet me be the love that comes form the sun

Let me be your rainbow rising on

Every single race out of space

Will shine on, shine onLet me be the love that comes from the sun

I wanna be your love light from above

Shine on, shine on My love ya comes out of devotion

To rule ya spread to the world

In strange town I'm on my mission

Where we praise the day straight our way all the nationLet me be the love that comes form the sun

Let me be your rainbow rising on

Every single race out of space

Will shine on, shine onLet me be the love that comes form the sun

I wanna be your love light from above

Shine on, shine on, sh
