

# Saucer Surfing

## Steve Hillage

first we see the greedy, gliming, fighting,  
biting, stealing, glider secret ladythen we see the joyful friendly,  
humble, wise, devoted working,  
golden spirit, light within,  
shining angel rising higher  
to boost our hope for living in peace and beautythe time is come to melt the hard  
world with our love and bring us to  
reality the media parrots  
and radio aims to help you  
a voice comes on the radio to find  
strange abilities to trip the whole  
realities upon envisioned spacea gleaming, looming, weaving new realities are  
harmonizing the world will be demagnetized  
allows the holy travel sequence onwardnow we're reality gypsies, travelling  
one to another tonight  
we're reality gypsies learning  
how to shift the phase of time  
we're reality gypsies surfing  
on the vibrations with our minds,  
we're reality gypsies  
the new age starts right now  
as you discover, your one of the brothersa traveling man, a traveling lady,  
a traveling persongnome: we would like to welcome you  
to your inner self, we are going to  
book a journey to another part of yourself  
that is timeless, spaceless,  
part of you've never used before,  
this is not a physical space,  
but just a set of of organized  
vibrations known as music!
