

What's It Like There, Tomorrow?

Zach Schimpf

I looked past the smoke, and I found all your mirrors there

Can you find a new way with me

I burned all the trees down.

I'll get used to all this sun.

Wont you start the new day with me

Close my eyes for tomorrow
close my eyes just to close them

knocking at the door again

what's it like, there tomorrow
hows it going there tomorrow?

What's it like over there tomorrow?

Is it ???

Just another celebration
looping on ???
waiting for a new mutation
Waiting for a new mutation
waiting on the next mutation
knocking at the door again

What's it like there tomorrow?
hows it going there tomorrow?
what's it like over there tomorrow?
