## Saves the Day

I remember the time  
When everything was all different  
We didn't really know each other then  
I didn't know how much you made me so  
I guess it was all pretend when  
You decided you're those all are different things.  
I don't think that it was all that bad.  
Especially that time in Princeton was nice.  
Then we pretend to be so close  
Now we wait  
Try not to be not so different  
Than we have in the past  
You made me so but I don't know  
To everything I'll hope again.  
I never wanna be not so here (x5)  
I never wanna be not so here again.
