Running Late (feat. BK)

Ross Jack

[Verse 1: Ross Jack]
Yeah, get my priorities straight
No time like the present, let us Self Medicate
Make the people feel good like we cooking space cake
And you were unsure, now you know there's no debate
Out collecting wins, committing sins with the preacher
Told me "What you gon' do when I've got no more to teach ya?"
Natural, healer
Pull out slow fire
Add some kush with it and it's gonna take you higher, higher, higher
Higher, yes, yes, higher
Yo, my ego's fine, I don't need 'em to admire
I just need 'em to acquire it in bulk
I could find a gold digger and just smash it like the Hulk
Let me shoot straight
There's a chance I could be late
So in other words, I got a ton on my plate
And is it dishonest if I tell you white lies?
'Cause what you don't know won't lead to your demise

[Hook: Ross Jack & B.K]
Let me apologise
We just running late
Now how long will it take?
40 minutes could be 45
Hoping that these trees get us really, really high
Couple more minutes so I can fraternise
Got a bad chick and she make me feel alive
40 minutes or could be 45
We just running late
Don't know how long it will take, yo

[Verse 2: Ross Jack]
Explosive like grenades with the pins out
Plus we hoping that she gonna bring her friends out
(Yeah, bring her friends out!)
(Yeah, bring her friends out!)
We just checked the time, last I checked it ain't a crime
Bad lines, phone showing me those "No Service" signs

And I tried rushing over, police pulled me, paying fines
Meanwhile out sipping margaritas
So caught up with these couple senoritas
But I always find the time for the most important vibes
Beats, money, trees, good woman, aim's to please

[Hook: Ross Jack & B.K]
Let me apologise
We just running late
Now how long will it take?
40 minutes could be 45
Hoping that these trees get us really, really high
Couple more minutes so I can fraternise
Got a bad chick and she make me feel alive
40 minutes or could be 45
We just running late
Don't know how long it will take, yo

[Verse 3: B.K & Ross Jack]
He says he's getting no bars in the booth but
(We just running late)
I'm asking, "How long will it take?"
Try manipulate saying I won't stay awake
But we tryna get it on, all night marathon, just a
(Couple more minutes)
We make each other's heads light
We relieve the tension so we never ever fight, just a
(Couple more minutes)
And here's the motivation
When he gets back it be worth the waiting

[Hook: Ross Jack & B.K]
Let me apologise
We just running late
Now how long will it take?
40 minutes could be 45
Hoping that these trees get us really, really high
Couple more minutes so I can fraternise
Got a bad chick and she make me feel alive
40 minutes or could be 45
We just running late
Don't know how long it will take, yo
