

# First Time

Jaden Smith

Is it butterflies for the first time?  
First time, first time  
I feel like I can fly for the first time  
First time, first time It's the first time that I try to read your mind  
And you've heard mine  
And this love will be sadder than when the birds cry  
And I think that it's great but is it worth dying for? Girl this love hurts  
And you were my first  
And deep down inside I hope you're my last one  
I just hope that we're ok when all of this cash comes  
Cause we know it's coming  
My money's runnin (runnin)  
My money's runnin (runnin)  
Girl our future is as sunny  
Girl I really like it, you ain't askin nothing from me  
And it's funny  
Won't you just come here and be my honey (be my honey baby)  
Baby you drivin me crazy  
Making me so hot when you roll up in that Cedes  
Girl you are so fine, blow me back into the 80's  
And I like your dirty dancing, let me be your Patrick Swayze (Patrick Swayze)  
Girl you're pretty as a daisy  
You be my Beyonce and I be your Jay-z  
I can be your wolf girl, you can be my Haley  
And I asked you why you runnin  
You said just so you can chase me Is it butterflies for the first time?  
First time, first time  
I feel like I can fly for the first time  
First time, first time It's the first time that I try to read your mind  
And you've heard mine  
And this love will be sadder than when the birds cry  
And I think that it's great but is it worth dying for? Is it? It doesn't make a difference to me girl so just listen  
Cause this is something that you get in your dreams girl  
You're so pretty  
I'm hanging with you but I'm so... busy  
And you're so trippy  
That were moving so fast and such a slow city  
But you said baby lay me down  
I don't even know when this is crazy wild

This love was hot and now you about to take me down  
You got some secrets oh baby girl you should say them now  
Cause the sun is setting on the beach  
And it's probly gon get chilly  
We'll get thing about some sheets  
Baby girl you are so pretty, I don't think we'll ever leave  
I don't know what's gonna happen  
Guess we'll have to wait and see  
Cause I got them butterfliesIs it butterflies for the first time?  
First time, first time  
I feel like I can fly for the first time  
First time, first timeIt's the first time that I try to read your mind  
And you've heard mine  
And this love will be sadder than when the birds cry  
And I think that it's great but is it worth dying for? NoWhat is pure?  
People walk around so insecure  
Fraid that you said the word it, it hurts  
As soon as you had your first it's like you baring a curse  
But girl I'll protect you  
I'm always next to you girl  
I respect you  
I'll never let you loose No  
Girl I'll never let you  
If you run away best believe I'm a come get you  
Girl I bring you love ever since I met you  
I remember you were sneezing  
You said achu I said bless you  
I'll just get you up girl  
And I know you get me  
Ever since you met me  
All those texts you sent me  
Wasn't lookin for love, just lookin for someone friendly  
And I got it, I was younger  
I was asking for a Bentley and I got it  
Now we're vibin super sexy  
And she's textin while we drivin  
Want some Teesa, want some Gucci  
Want some fenny then we got itIs it butterflies for the first time?  
First time, first time  
I feel like I can fly for the first time  
First time, first timeIt's the first time that I try to read your mind  
And you've heard mine  
And this love will be sadder than when the birds cry  
And I think that it's great but is it worth dying for?
