Buy Nothing Day

The Go! Team

nothing came today
nothing will tomorrow
no-one took the system cos the world was out of
bounds
action is a strategy theres just no getting roundbut i would never lose my head tonite
and i would never lose my head tonitecos when its
all coming back
kickstart the motor
circle the track
over and overwe don't plan it all
cos making it up is so natural
we don't know for sure
but this is the law
we'll never come back here toniterunning out of luck
running out of money
running for the subway isn't gonna make it, girl
won't start revolutions but we're giving it a whirland i would never lose my head tonite
and i would never lose my head tonitecos when its
all coming back
kickstart the motor
circle the track
over and overwe don't plan it all
cos making it up is so natural
we don't know for sure
but this is the law
we'll never come back here tonitecos when its
all coming back
kickstart the motor
circle the track
over and over
all coming back
kickstart the motor
circle the track
we'll never come back here toniteand i would never lose my head tonite
and i would never lose my head tonite
