

If This World Were Mine

Ambrose Slade

CHORUS

If this world were mine, I'd play a rub a dub all the time

Oh girl you would be mine, keeping per perfect time

If this world were mine, I'd play a rub a dub all the time

Oh girl you would be mine, keeping per perfect time It was a lonely afternoon I took a walk that day

And there she was up in the park could it one same way

She was wearing something oh that I cannot mention

Just to get my attention

I said I'm running no game what is your name

Do you understand what I say

Are you confused by the words that I choose

And if you are should I slow down

So io so io so io an manyana

Young girl listen to what I say CHORUS You got me movin' you got me groovin' make me feel much younger

Say even is the bag she got me bubbling under

Make me pray to God when you roll like thunder

The heat from your body make it hot like fire

Say there's no other girl that can quench my desire

Now if you had the same you wouldn't call me a liar

She makes me high, so high CHORUS I only wanna rub a dub with you baby, you know I love you

I only wanna rub a dub with you baby, all the time

Wanna get with you but I wanna be your play toy

Venture into something new

Wanna kiss your sweet lips touch in the sun dips

Tell me what you wanna do

Whatcha gonna do...CHORUS
