

# TonightÂ´s the Night

## The Chiffons

You said you're gonna meet me  
    Tonight's the night  
You said you're gonna kiss me  
    Well, I don't know  
    Said, "I don't know right now"  
    I might love you so  
You say you're gonna beg me Turn the lights down low  
    You said you're gonna make me  
    Feel all aglow Well, I don't know  
    Well, I don't know right now  
    I might love you so  
I might love you so much You may break my heart  
    I may want you so much  
    And all my dream been torn apart  
You say you're gonna love me Tonight's the night  
    You say you're gonna hold me  
    Tonight's the night, I don't know  
    Said, "I don't know right now" I might love you so  
    Let's take a chance  
    Gonna be a great romance  
Movin' right now Gonna be a great romance  
    Gonna be a great romance  
    Gonna be a great romance  
    ...
