

Louder Than Ever

Cold War Kids

All my windows were barred,
The sun made stripes of shade
I was sitting around like a zombie
Feedin my own face I was counting my chi
I was digging my strange
I was taken you for granted
While you were holding the reigns [Chorus]
I can hear you louder than ever
Whisper to me
Help me remember
I can't see you but
We're still together
I can hear you louder than ever It's a slippery slope
Like that Mouse Trap game
Inside my tunnel vision
You stepped on my train [Chorus]
I can hear you louder than ever
Whisper to me
Help me remember
I can't see you but
We're still together
I can hear you louder than ever I don't wanna ignore
You or the past or my feelings
We're probably gonna get out of this just
Hear me out anyway
A darkness snuck in
Now I'm doubting all my promises
Don't try and pull me out of this just
Lay down by me and wait [Chorus]
I can hear you louder than ever
Whisper to me
Help me remember
I can't see you but
We're still together
I can hear you louder than ever I can hear you louder than ever
[repeat x4]
