In Time

Battleships

Frain Freeze
1 ano atrÃ¡s (editado)
Here we are,

We found my place

Hidden from all, we fall from grace

All the words of time and space

Such contrast, slow start to face

Dream could I
On just one takes
Set all doubt into such pace
Eyes have come
Has mean world ???
Still I wait to runaways

And there in the sky I wrote your name
Way up high I saw your face
And you and I to think such foolish ways
And so await on mountain rage
Without a clue to move
and far ??? my mind is strade and true

And there in the sky I wrote your name
Way up high I saw your face
And you and I to think such foolish ways
Ooh ooh ooh ooh
I was just learning to love you
When you left me behind
I was just learning to love you in time.
