

Up & Down

Glenn Lewis

You were there from the day I was hustling struggling
With dreams and ambitions when nothing was coming in
You were there, you were there so it don't matter what they say
'Cause we ain't gonna do this thing our way
 You make shelter in to put my pride in
 You put your time in girl I'm committed
 It don't matter which way that we go
As long as we keep holding on[Chorus: x2]
 Said we go up , we go down
 And you're always around
 And I know you're a fighter
 So I'll stay beside you
 Just know, know, know

I'll be there for you, you babyI remember talking non sense saying that I'm gonna leave
But you gave me a look like boy you know you're stuck with me
 I remember days when you held it down on your own
 When my income was slow you're so incredible baby
 You made suffering feel like succeeding
 Build my confidence girl I'm committed
 It don't matter which way that we go
As long as we keep holding on[Chorus: x2]
 Said we go up , we go down
 And you're always around
 And I know you're a fighter
 So I'll stay beside you
 Just know, know, know

I'll be there for you, you babyGirl, don't ever think
 That I won't be there
 Hold tight won't never change
Just how much I care[Chorus: x2]
 Said we go up , we go down
 And you're always around
 And I know you're a fighter
 So I'll stay beside you
 Just know, know, know

I'll be there for you, you baby
