

Disaster Vehicle

Volumes

Fuck the system and its politics
All politicians are corrupt then quit
They all switch and they all snitch
Just to benefit and get more rich
It's all bullshit and it ain't no lie
Fuck the politics, I'll burn that bridge Yeah
There's a war on drugs, war on love
Can't tell me no cause there's a war on us

Yeah

They kill these kids in the streets
Lock us all down and say we're free
Open your eyes, can't you see?
Fuck the system and its politics
All politicians are corrupt then quit
They all switch and they all snitch
Just to benefit and get more rich
It's all bullshit and it ain't no lie
Fuck the politics, I'll burn that bridge Police killing off civilians

Killing all the innocents

This is all imminent

Been through the imprisonment

This is no coincidence Police killing off civilians

Killing all the innocents

(Killing all the innocents)

This is all imminent

Been through the imprisonment

This is no coincidence

(This is no coincidence)

Rats in the wheel grinding everyday

Rats in the wheel grinding life away

We're all rats in a wheel grinding life away Fuck the system and its politics

All politicians are corrupt then quit

They all switch and they all snitch

Just to benefit and get more rich

It's all bullshit and it ain't no lie

Fuck the politics, I'll burn that bridge
