Close You Eyes

The Maltfriscans

Close your eyes, open your heart
Close your eyes, open your heart

It's to rest in peace now
Your prayers I can hear
I love you my child
You can sleep without fear

Close your eyes, open your heart
Close your eyes, open your heart

I see your eyes heavy
On your beautiful face
My mother's holding you
Can you feel her warm embrace?

Close your eyes, open your heart
Close your eyes, open your heart

And while you are sleeping
My angels will sing
They'll keep you safe
'Til the new day I bring

Close your eyes, open your heart
Close your eyes, open your heart
Close your eyes, open your heart
Close your eyes, open your heart
