Silent Scream

Children of Bodom

Nightmare, mass depression, silent screams out there
Dammit, into darkness something that'll never rise
Darkness, in this something that the world that follows rhyme
Impetrate, simplest wine, deep within my spineSilent scream, tearing it up in time
It'll die sucking the part where it'll dieShout another time, evil hard knock game
Mistake, mistaken, something that's chewing you down
Scared of dangers of light, bury tainted guy
Grain suffers rhyme, hard is something that is destroyedSilent scream, the worst of the bitterest sound
Evil does the light turn into stowLight, free of dead, humanity mayday
Destruction to the end show
Preserved the nastiest prey, wake me up and down

Preserved the nastiest prey, wake me up and down
Infinity to prey, selection to the later
It brought us the end of the dayNightmare, mass depression, silent screams out there
Dammit, into darkness, something that'll never rise
Innocent, we're all gonna die
Silent scream, it's the end of light
