

# Body Count

## Cancer

He stalks the night for his prey  
He'll maim and kill while you prayLegacy of his tragedy  
Born to kill for his mother's sins  
Twisted mind living to kill  
Now you'll die, blood will spillAnother victim hacked to death  
No warning when he'll strikeLegacy of his tragedy  
Born to kill for his mother's sins  
Twisted mind living to kill  
Now you'll die, blood will spillThe body count continuesHe terrorizes through innocence  
As you see another deathLegacy of his tragedy  
Born to kill for his mother's sins  
Twisted mind living to kill  
Now you'll die, blood will spill
