

We're Not Blind

Squad Five-O

people ask me son what you gonna do with your life
open up your eyes and leave your childish ways behind
i don't wanna grow up, i swear i never will
never gonna change me, never change the way i feel
what it seems to me, we're not blind
it's the truth we seek
and we will no deny the truth we see
i don't have a steady job just to stay alive
i won't ever be rich but i know i will survive
my life has direction and pure sobriety
what it seems to me, we're not blind
it's the truth we seek
and we will no deny the truth we see
