

This Car Of Mine

Beach Boys

This car of mine
A-win I got her now she wasn't new
Old and broke down
This car of mine
There's been a lot of races we been through
No slow poke now I never want to part with her you see
This little car means a heck of a lot to me
(This car of mine) I remember the day
A-when I chose her over all those old
Broken junkers
Thought I could tell
Underneath a coat of rust she was gold
No clunker Just couldn't wait to take her home with me
And fix her up just as new as she could be
(This car of mine, this car of mine)
(This car of mine, this car of mine) Ain't no amount of gold in any mine
Would be enough to take away this car of mine
(This car of mine) This car of mine
Oh, this car of mine
She's so so fine now
This car, this car so fine now
She's so fine
