Spring Is Just Around The Corner

Richard Julian

Hush now baby, don't you pout
Spring is just around the corner
You may be down but you're not out
Spring is just around the bendThe honey circle or the wine
Just when you all but lost your mind
It's gonna hit you from behind
Spring is just around the corner, trust meWell, all the lake is frozen and the well is empty
We're staring into the abyss
There's that old turner phrase
That my grandmother lent me
Goes something like thisThe darkest part of the night
Always comes before the light
That's in the Bible, it's got to be right
Spring is just around, spring is just around
Spring is just around the cornerI think the President put it best
When he gave his big address
He said, I know what they told you in the press
But people, spring is just around the corner
Trust me, spring is just around the cornerSpring is just around, spring is just around
Spring is just around the corner
