

Make a Difference

Bodyjar

You know, I see so much motivation in your eyes
And I know it makes you think like you've been hypnotized
And you try to make me understand the things you do
But I can't, so I just walk away and stay confused
It won't make a difference, it won't be the same
Believe in all you see
Won't be a next time, one more mistake
Believe in all you see
You walk around consuming all the things you want
And we dry up every well till every drop is gone
The headlines got me thinkin' about it everyday
Packaged up as entertainment anyway
It won't make a difference, it won't be the same
Believe in all you see
Won't be a next time, one more mistake
Believe in all you see
Don't believe in what you see
Don't believe in what you see
It won't make a difference, it won't be the same
Believe in all you see
Won't be a next time, one more mistake
Believe in all you see
Believe in all you see
Believe in all you see
