

# Death from Above

## Thrice

I always thought, I always thought  
That there was something setting us apart  
    And I was lead, and I was lead  
By men with sober minds and sympathetic hearts  
    I swore an oath, I swore an oath  
    But never knew just what it was to take a life  
        To play a god, to play a god  
Across the distances and from so great of heightsBut I am never sure  
    Who I am killing  
    How many innocents  
    Are in these buildings  
    No love for human beings  
        No love for people  
    Just targets on the screen  
.....  
    Death out of the sky  
Tell me whyOne day they sent, one day they sent  
    Me to the chapel and when I said I can't go on  
        And all he said, and all he said  
Was just to shut my mouth and do the will of GodBut I am never sure  
    Who I am killing  
    How many innocents  
    Are in these buildings  
    No love for human beings  
        No love for people  
    Just targets on the screen  
.....  
    Death out of the sky  
    Tell me why
