

# Words

## Lady Gaga

I won't break down today  
Another brick's in my way of shadows  
The promises they made  
Regret themselves and say this is too hard  
Yeah they say you grow when you don't succeed  
But it's hard to breathe when no one believes in me  
So let the sound bring me back  
Sounds have no regrets  
And before you know it  
I'll take your words and be gone  
Your words and be gone  
Your words and be gone  
Right to the stars and beyond  
Your words and be gone  
I'll take your words and be gone  
Whenever you're afraid  
Or someone's far away, never give in  
'Cuz happily, we'll reign  
When consequences change, believe you can win  
Yeah they say you grow when you don't succeed  
But it's hard to breathe when no one believes in me

So let the sound bring me back  
Sounds have no regrets  
And before you know it  
I'll take your words and be gone  
Your words and be gone  
I'll take your words and be gone  
Right to the stars and be gone  
Your words and be gone  
I'll take your words and be gone  
Let the sound bring me back  
Sounds have no regrets  
And before you know it  
I'll take your words and be gone  
Your words and be gone  
Your words and be gone  
Right to the stars and be gone  
Your words and be gone

I'll take your words and be gone  
Your words and be gone  
Your words and be gone  
I'll take your words and be gone
