

# I Choose to Trust

## The Craguns

Things I don't understand can't figure out  
The sinful ways of man lead me to doubt  
But God is standing near my cry for help Hears  
So I will never fear but choose to trust

### Chorus

I choose to trust in God I choose to trust  
Through all my suffering through every trial  
I'll let Him lead the way I'll follow everyday  
I choose to trust in God I choose to trust

When Moses trusted God he raised his hands  
The Red Sea parted and it became dry land  
So if you're wondering what God can do  
Just trust His mighty power He'll see you through
