

# SURROUND SOUND

## GS Boyz

Let's flow together like water  
Til I can tell you probably  
Our great king wave is rolling  
Oh, I see

Let's flow much harder than the sun  
Til all flames incendiary  
Like saving rays I'm sleeping

The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround

Let's push through four dimensions  
Til I'll resign to change  
My duty with no thinking  
It's not a way

Let's seek and reach for greatness  
Here come all true and journey  
Let's resonate together

The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround

The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround

The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround
