This Side Of Me

Savage Garden

I want to move in time with you
I want to breathe in rhyme with you
I want to feel the deepest kiss
And I want to know you feel like this
For this one time, one time
Let my body do what it feels
For this one time, one time
Let this fantasy become real
Because I'm not afraid
To let you see this side of me
Oh, I, no, I
I want to feel your hand in mine
And I want to feel that rush in my spine
I want to wear the scent of you
And do all the things you want me to
So, baby, there's a one time, one time
Let my body do what it feels
For this one time, one time
Let this fantasy become real
Because I am not afraid
To let you see this side of me
I feel the danger, the separation
I wanna take your invitation
This separation, it's all around
I need this side of me
Side of me, this side of me
I want to move in time with you
And I, I want to breathe in rhyme with you
I want to stitch my clothes in sin and in the dark
I want to find that door and go within
For this one time, one time
Let my body do what it feels
For just one time, one time
Let this fantasy become real
Because I am not afraid
To let you see this side of me
No, I am not afraid
To let you see this side of me
Side of me, this side of me
