

Center of the Sun

Wolfgang

He's the king of reason
the leader of none
the lord of question
the ever trusted son
though his body rests the ever bright one
he'll be known forever as the center of the sun
he's the great contender
the eye of the tri
a mystery in a mystery yes a man wouldn't die
though his body rests the ever bright one
he'll be known forever as the center of the sun
i say hey what's his name
born seventh from the seventh the lucky child
a seal in the doorway no he'll never be denied
though his body rests it'll never tire
born seventh from the seventh a very lucky child
center of the sun what's his name
