Captain Everything!

Seems like it's here today
And we'll be here tomorrow
I don't know why we have to stay so long
I know
It's you
I want
To think about
It's you I need for
Everything
So don't
Let this get harder
'Cos I still can't seem
To fight it out
To fight it outI got to thinking that
With every day that passes
I feel as though
I couldn't wait so long
I know
It's you
I want
To think about
Do you need me for
Anything?
So don't
Let this get harder
'Cos I still can't seem
To fight it out
To fight it outSeems like it's here today
And we'll be here tomorrow
I don't know why we have to stay so long
So don't
Let this get harder
'Cos I still can't seem
To fight it outSeems like it's here today
Seems like it's here today
Seems like it's here today
Seems like it's here today
