

I'm Asking You

Blue Highway

Jesus I am thankful for all you've given me
And I'm asking for your help Lord to be all you'd have me be
With an humble voice I cry out from a world filled with pain
Please help me see the sunshine and look beyond the rain

I'm asking you 'cause you know how
To heal a heart and clear the doubt
You can take away the hurt
And make it all work out
I'm asking you 'cause you know how

May I always be aware of the blessings that you bring
And may you always be the reason I lift my voice and sing
Teach me faith and guide me and show me how to stand
Through trying times that face me Lord I know you can
