

# Celebration

## Kings of Leon

Hang your weary head you seem defeated  
Like the little girl you've been with cheated  
And in the conversation had to go too far  
Now your dropped off drunk in the back of your heart  
So dry your lily eyes don't be so cruel  
Using all you know it's meant for fools  
See you're smoking up in the parking lot  
Shake your little butt, show 'em what you got  
Hot and the men all want and the chase is on?  
Now your flag is flying in the dark and cold  
So dry your lily eyes don't be so cruel  
Using all you know it's meant for fools  
It's in a celebration  
There's something in the air  
A little celebration  
There's something in the air  
Are y'all giving up? Don't want to know now  
And everybody sees everybody in your town  
Oh, and the small town girl she went and got a bar  
She gonna shake it off she gonna give 'em what she's got  
So dry your lily eyes don't be so cruel  
Using aw you know, I said it's meant for fools  
This is a celebration  
There's something in the air  
A little celebration  
There's something in the air  
This is a celebration  
There's something in the air  
A little celebration  
There's something in the air
