

# What Won't Kill You Eats Gas

## Reggie and the Full Effect

I can't explain what made me do this  
Not your fault, sometimes this can surface  
I've seen the future and it's caving in  
Don't close your eyes 'cause then it will begin  
Sorry I've got to go away again  
Sometimes I never wanna leave at all  
But if you had to fall in love  
I hope you never fall in love  
So Monday morning is my weekend  
I know I jumped right off the deep end  
You know that I always want to hesitate  
Please remember good things come to those who wait  
Sorry I've got to go away again  
Sometimes I never wanna leave at all  
But if you had to fall in love  
I hope you never fall in love  
You fill me and thrill me, I hope this won't kill me  
You fill me and thrill me, I hope this won't kill me  
Sorry I've got to go away again  
Sometimes I never wanna leave at all  
But if you had to fall in love  
I hope you never fall in love  
You fill me and thrill me, I hope this won't kill me  
You fill me and thrill me, I hope this won't kill me  
You fill me and thrill me, I hope this won't kill me  
You fill me and thrill me, I hope this won't kill me
