Light a City (Up In Smoke)

Lazarus A.D.

Shed the fields of destiny
Awaken from the haze
Regrow this land of poverty
As quickly as today
A simple flick the fire burns
Everything will thrive
Winding down the more we earn
This dream it will surviveFire it up take it slow
Soon enough the truth will showLight a city up in smoke
Burning without agony
The answer to a buried land
Rooted as the enemy
[repeat]Arrest the weak withhold the earth
Imprisonment for all
Those who seek the natural worth
Rise before you fall
Forget the greed forgive the lies
Ashes of the old
A tattered nation rectified
With every gram thats sold
Fire it up take it slow
Soon enough the truth will showLight a city up in smoke
Burning without agony
The answer to a buried land
Rooted as the enemy
[repeat]Light a city up in smoke
Burning without agony
The answer to a buried land
Rooted as the enemy
[repeat]
