

# Christian In the House

[Karen Peck](#)

When I'm down when I'm blue  
I'm gonna need someone to see me through  
When I'm alone and full of doubt  
I'll be looking for a believer to pull me out  
I need a spirit filled iron willed Heaven blessed  
Pass the test saint to remind me  
That I'm a straight runnin' overcomin'  
Saved by Grace child of faith I need to know

Is there a Christian in the house someone to lend a hand  
Is there a Christian in the house come on and take a stand  
I don't need a doctor when my hope is running out  
Somebody tell me is there a Christian in the house

There are days I'm a mess  
I'm gonna need someone to ease the stress  
And there are nights full of tears  
When I'm praying for an angel to appear  
Don't need a stone throwin' under towin'  
Analyzin' criticizin' judge to deflate me  
I want a life givin' gospel driven  
Gentle ever loving nudge I need to know

Is there a Christian in the house someone to lend a hand  
Is there a Christian in the house come on and take a stand  
I don't need a doctor when my hope is running out  
Somebody tell me is there a Christian in the house

I need a spirit filled iron willed Heaven  
blessed  
Pass the test saint to remind me  
That I'm a straight runnin' overcomin'  
Saved by Grace child of faith faith faith I  
need to know

Is there a Christian in the house someone to lend a hand  
Is there a Christian in the house come on and take a stand  
I don't need a doctor when my hope is running out  
Somebody tell me is there a Christian in the house

Oh somebody tell me  
Is there a Christian in the house  
Somebody tell me

Is there a Christian in the house someone to  
lend a hand  
Is there a Christian in the house come on and  
take a stand  
I don't need a doctor when my hope is running  
out  
Somebody tell me is there a Christian in the house
