Soon We'll Be Living In the Future

Straylight Run

So please be honest
What's it mean
Now what have you done
Cant it just be another risk you're running tonight
It's simple soaked and always on my mind
I'm dyingWe got these lives to lead
Cut it out
Dont think about it
Cut it out
Dont think about it
Not now
We'll get through some howThis is only temporary
No this is only temporary
Not now
But soon
We'll be living in the future
And please be honest
Whats it mean
Now what have you done
Can't it just be another risk you're running, tonight
It's simple soaked and always on my mind
I'm dyingWe've got these mouths to feed
Food and drink and hand shaked drugs
Food and drink and hand shaked drugs
And we've
We've got something up our sleeves
No ones gonna see it coming
No no ones gonna see it coming
Not now but soon
Well be living in the futurePlease be honest
Whats it mean
Now what have you done
Cant it just be a another risk you're running
Now, whats it mean
Now what have you done
Cant it just be another risk you're running, tonight
It's simple soaked
And always on my mind
It's simple soaked

And always on my mind
Im dying
