

# Voyager

## Gamma

GAMMA ' VOYAGERThe dark of the sky ' the light of the moon  
The solitary figure will be home real soon  
He has braved the storms of time ' his life is on the line  
He's been prayin' to his saviour  
Please take me away from hereThe man on the ship - has a lot to fear  
He hasn't seen home - in almost a yearWhen darkness falls ' he goes by the stars  
Getting directions from Jupiter and Mars  
It was he who created this strife  
He is fighting for his life  
He is longing to see ' His wife and his family  
CHORUS then SOLO  
Well will things be the same '  
When he gets home again  
Will his children still remember '  
The man who went away  
The year that has gone past '  
All the places he has been  
He'll remember to the last '  
The worlds that he has seenCHORUSOh oh ohFade to end
